---

It went really well.

He did ask how all the other work in the basin fit in with the ground water investigation – Homestake, Removal EE/CA for Section 35/36 mines.

Kevin Shade and I are going to sit down with Sai and OSC's next week to map this out.

I have attached the slides. They include a schedule for releasing report and community meetings.

I did receive a proposal yesterday from USGS. I forward that in separate e-mail. I also discussed the conceptual site model with Earle yesterday to ensure we are on the same page with what is needed.

How'd it go? Any discussion of next steps – further monitoring and modeling?

Stephanie,

We briefed Carl on this yesterday at 11:30 am. A slot opened up for him and he asked for the briefing.

Thank you though.

Hi Mark.

The last 2 days have been crazy on Carl and Pam's calendars.

Carl left around 2 pm on Wednesday and meetings all day yesterday.

Please check your schedule for next week and let's regroup, so I can scan the calendar and get something on there today or Monday.

Thank you.

**Subject:** Need to schedule a brief with Carl on San Mateo Creek

Stephanie,

Could you try to get us on Carl's calendar for a briefing on the Phase 1 Ground Water Report for San Mateo Creek Basin. Carl canceled our brief last week and asked for it this week.

Wed/Thur always good.

It would be John, Blake and me as well as Ben Banipal's team and Pam Travis.

Thank you.

Mark
